RE: Telephone Privacy Action Alert

To Whom It May Concern:

I received a letter from the Indiana Attorney General Steve Carter to advise that the Federal Communications Commission (FCC) is considering a proposal that could diminish the protections we receive from Indiana's Telephone Privacy Law. I was informed that the FCC is considering preempting state Telephone Privacy Laws in favor of adopting one lower national standard. The result of this would be that we citizens of Indiana would receive more unwanted telemarketing calls. Should the FCC try to preempt state law, we could receive unwanted calls from companies that we have previously done business with such as credit card companies, phone companies, and anybody else that considers us an "existing customer".

I wish to strongly urge the FCC not to implement any proposal that would lessen Indiana's Telephone Privacy law protections." The Indiana Telephone Privacy law has improved my time at home. I used to receive 10-20 telemarketing calls per week, now I only receive one (1) per month!

Very truly yours,

Jeffrey B. Harding
